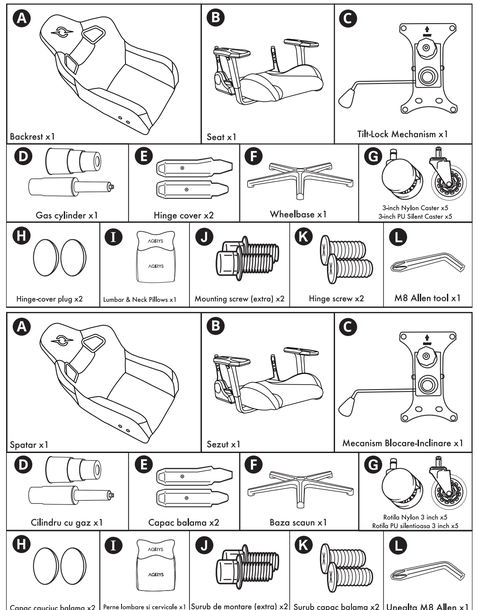
AQIRYS®

FENRIR

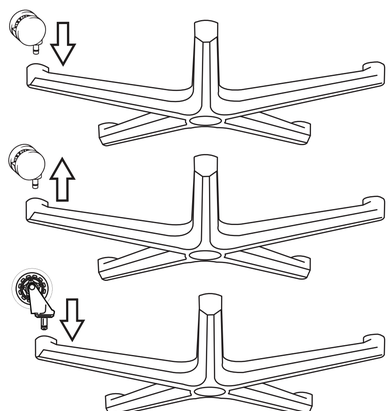
GHID DE INSTALARE
INSTALLATION GUIDE

RO / EN



RO 1. Instalati rotile in baza impingandu-le ferm in gaurile corespunzatoare.
In mod similar, puteti scoate si inlocui o roata tragand-o ferm din baza scaunului.

EN 1. Install the casters into the wheelbase by firmly pushing them into their corresponding holes.
Similarly, you can remove and replace a caster by firmly pulling it from the wheelbase.

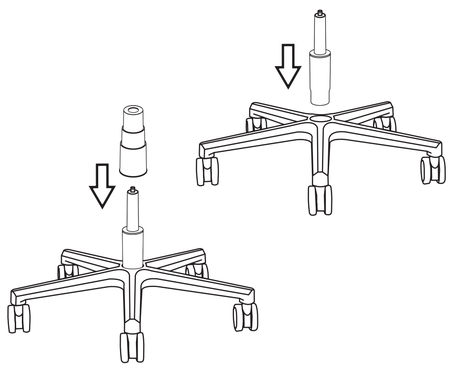


RO 2. Instalati cilindrul cu gaz deasupra bazei - plasati capatul mai mare in orificiul central al bazei. Asezati masca cilindrului peste cilindrul cu gaz, cu capatul mai mare orientat in jos. Scoateti clema de protectie din partea superioara a cilindrului cu gaz.

Va rugam sa retineti ca, daca clema nu este indepartata, nu veti putea regla inaltimea scaunului!

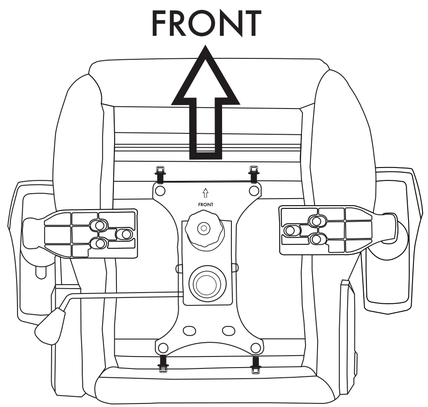
EN 2. Install the gas cylinder on top of the wheelbase - place the larger end into the center hole of the wheelbase. Place the cylinder cover over the gas cylinder, with the larger end facing down. Remove the protective tab on top of the gas cylinder.

Please note that if the tab is not removed, you will not be able to adjust the chair's height!



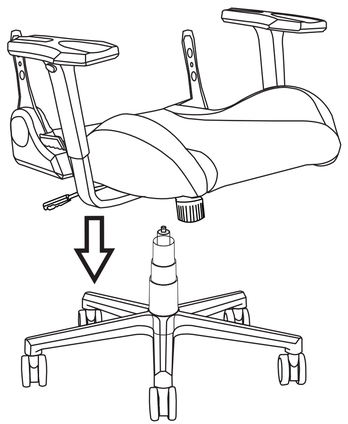
RO 3. Folosind unealta inclusa in pachet, scoateti cele patru suruburi din partea de jos a sezutului, apoi atasati mecanismul de blocare-inclinare si fixati-l de sezut utilizand aceleasi patru suruburi. Va rugam sa retineti, mecanismul trebuie instalat cu partea marcată "Front" spre partea din fata a scaunului.

EN 3. Using the provided tool, remove the four screws from the seat bottom, and then attach the tilt-lock mechanism to the seat, fixing it using the same four screws. Please note, the mechanism must be installed with the side marked "Front" towards the front of the seat.



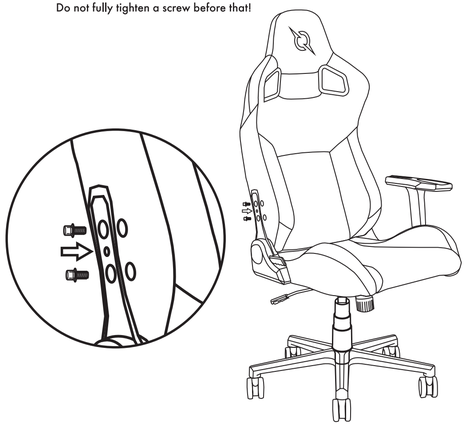
RO 4. Atasati sezutul cu mecanismul de blocare-inclinare instalat la cilindrul cu gaz de pe baza scaunului, introducand cilindrul in orificiul central al mecanismului si apasand ferm.

EN 4. Attach the seat with the installed tilt-lock mechanism to the gas cylinder on the wheelbase by inserting the cylinder into the center hole of the seat mechanism and firmly pressing down.



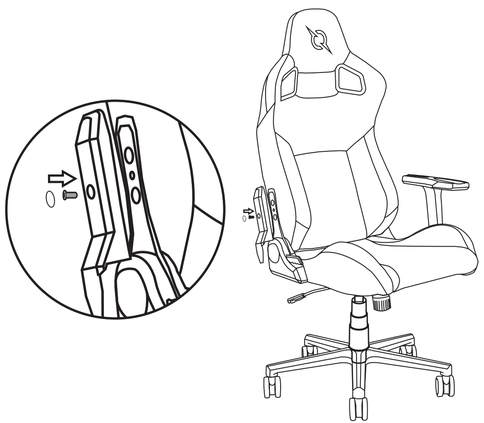
RO 5. Folosind unealta inclusa in pachet, scoateti suruburile din spatar. Atasati spatarul la sezut si fixati-l cu suruburile de montare incepand din partea care include mecanismul de rabatare. Strangeti suruburile treptat doar dupa ce ambele parti au suruburile introduse (doua pe fiecare parte).
Nu strangeti complet un surub inainte!

EN 5. Using the provided tool, remove the screws from the backrest. Attach the backrest to the seat, and secure it with the mounting screws starting from the side that holds the reclining mechanism. Tight the screws gradually after both sides have the screws inserted (two on each side).
Do not fully tighten a screw before that!



RO 6. Asezati capacul balamalei pe suportul balamalei si fixati-l folosind suruburile capacului balamalei si unealta inclusa. Atasati capacele de cauciuc pentru a ascunde suruburile capacelor.

EN 6. Place the hinge cover onto the hinge bracket and fix it using the hinge cover screws and the provided tool. Attach the rubber caps to hide the covers screws.

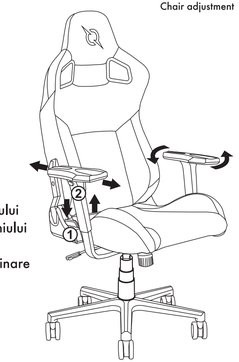


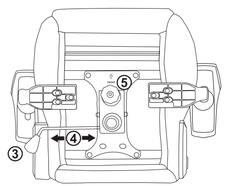
Reglarea scaunului

Chair adjustment

RO
1. Maneta de rabatare spatar
2. Buton de reglare a inaltimii cotierei
3. Maneta de reglare a inaltimii scaunului
4. Maneta de blocare a inclinarii/unghiului scaunului
5. Sistem pentru reglarea fortei de inclinare a scaunului

EN
1. Backrest recline lever
2. Armrest height adjustment button
3. Chair height adjustment lever
4. Chair tilt/angle lock lever
5. Chair tilt tension knob





Unlock/Deblocare ← ④ → Lock/Blocare
